Scouting The Shops

With Sally

It's that ghostly, scary, time of year that's known as Hallowe'en. "Ptf-ftf!" says John. "There aren't any ghosts. Take a mug of cider from Westlake Market and half a dozen Geneva Bakery doughnuts—and you won't be afraid of any ghost that floats."

Of course we don't believe in ghosts. But we are afraid of them. Last night our next-door neighbor knocked on our door and her face was white as a shirt just washed by Daly City Cleaners.

"It's floating around in my back yard," she whispered wildly. "It waves its arms."

John's mouth was full of cream cheese from Miriam Grocery but he was sympathetic, and offered her a Bayer Aspirin from McGraw Brothers Pharmacy.

"What's —ug —floating—" he took a last heroic swallow and washed it down with a glass of pineapple juice from Farmer's Market—"around?"

She looked fearfully over her shoulder. "My husband went to the Daly City theatre," she wailed. "I wish I had gone. I was sitting in the living room listening to my Zenith radio from Byrne's—they were telling a ghost story—" her voice faltered. She swallowed a sip of brandy from Gelsi's Place.

"Yes, yes," urged John. "And then what happened?" He was trying hard to be polite but you could see that his heart wasn't in it—not with two sizzling slices of ham from Robertson's Egg Store under his nose.

"The Daly City Dress Shop is having a sale this week," she continued. "So I got up to find the ad about it. And I had just decided to give the children dancing lessons with Jack Carney when I looked out of the window and all of a sudden I saw—"

John looked at her with a funny little gleam in his eye. He took a bite of ice cream from Daly City Cut Rate Market and finished off with an olive from Lucca Ravioli.

"What did you do with your tablecloth when you washed it?" he inquired. "Why don't you send your clothes to Beeson Cleaners? Now what did you say you saw in the backyard?" he finished innocently.

She looked very sheepish. "I guess it was my tablecloth on the clothes-line," she answered.

We haven't seen our next-door neighbor since. But we haven't seen any ghosts, either.

Miss Carr

HUNDREDS ATTEND RECORD'S HAPPY KITCHEN COOKING SCHOOL

Home-makers like to learn new things!

This was emphatically illustrated as more than 600 Daly City housewives flocked to the local theatre for the Daly City Record's big two-day cooking school, Tuesday and Wednesday.

Miss Carolyn Carr, the charming cooking school director, explained each of the tempting dishes she prepared, step by step. The Record printed all of the demonstrated recipes in its home-making section of the paper, providing a permanent record of the school for each lady.

Free prizes and a top-flight show, in addition to scores of new culinary ideas, made the event a memorable one for the women of this community.

Local merchants, who cooperated with The Record and Shopping News to bring the Happy Kitchen Cooking School to Daly City, today expressed their satisfaction at the success of the show.

New Use for Microscope

A new use has been found for the electron microscope, by Drs. Abner Wolf, David Cowen, and Beryl Page of Columbia university. This new super-sharp microscope is able to reveal the exact location, in the cells of glands, muscles, and other tissues, of vital minerals, such as calcium and phosphorus.

Cooking Lesson

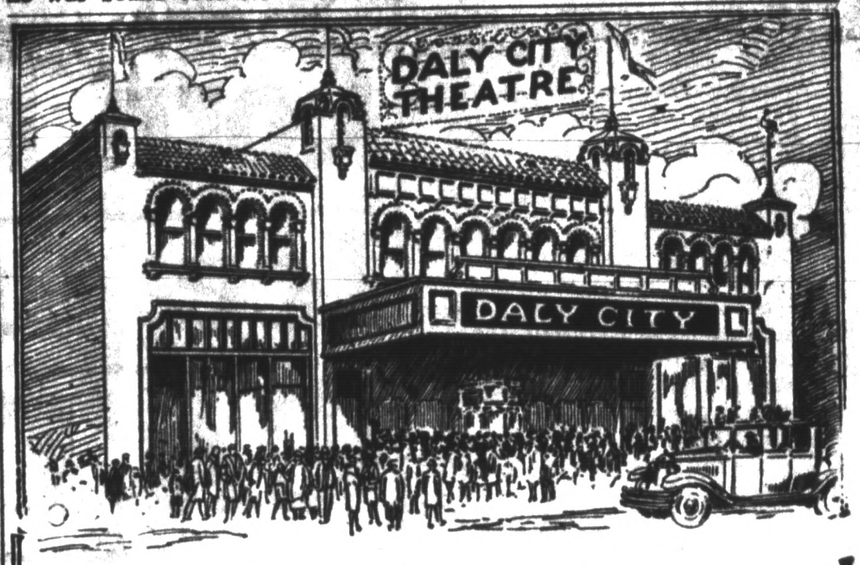

Left at home to cook his supper while his wife was at the movies, a 28-year-old husband in Prague, Czecho-Slovakia, became so alarmed when the porridge boiled over and filled the kitchen with steam that he rushed to the theater, calling loudly for his mate. The attendants objected to this disturbance of the performance, but the frenzied man threatened them with violence if they interfered. Charged at the police court with disorderly conduct, he was bound over for 12 months.

Wood for Matches

About 300,000 mature trees are needed each year to manufacture 287,000,000,000 wooden matches in the United States.

Teas for Three

At Yonkers, N. Y., a water tower marks the spot where the first golf tee in this country was located. Early alibick fans, however, found the pasture was too hilly for golf and abandoned what might have been America's first golf course after only three holes had been laid out.

London's Autumn Flowers

In the countryside around London in the fall can be found Heather and Willow Herb in flower, Travelers Joy in the Hedgerows, Convolvulus, Teazles, ivy in bloom, and plenty of blackberries and nuts for the gathering.

Not So Bad

The Melbourne, Australia, government is convinced that traffic and driving instructions offered in a humorous vein are more effective than the usual type. With every driving license now granted is provided a book entitled "Many Happy Returns," containing instructions like the following: "It isn't your fault if all the other road users are completely daft, but it is your fault if you aren't prepared for them to be so."

Western Duck Sickness

Vanez T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

Location of Thermostats

Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air. The rather bulky thermostat of yesteryear has been beautified, and their location today on the living room wall does not mar the decorative scheme.

A natural for Halloween
Orange-Frosted Gingerbread

Old-time goodness—streamlined recipe

● A recipe for gingerbread, they say, came over on the Mayflower. And did you know that George Washington's mother served a special "spiced gingerbrede" to Lafayette, at Mount Vernon?

Here's a recipe based on the same combination of fragrant spices and dark molasses Mrs. Washington used in her "gingerbrede." Try it today; enjoy it on special occasions, too. It's an American recipe, through and through—a gingerbread extra-rich, dark, and cake-like.

Fortunate
Mrs. 1940 America

Cakemaking is certainly simpler and *surer* today than it was in 1775. Take shortening, for instance. Long, tedious hand-creaming used to be necessary. Think how delighted the colonial lady would have been with gleaming-white, purer, easy-to-cream Spry! Extra blandness lets flavors come through fuller and richer now than in a prized "spiced gingerbrede" recipe. Try Orange-Frosted Gingerbread, 1940 style, for a Family No. 1 Favorite!

Frosted Gingerbread

¾ cup Spry	3 eggs, unbeaten
½ teaspoon salt	1 cup molasses
2 teaspoons ginger	2¾ cups sifted all-purpose flour
1½ teaspoons cinnamon	½ teaspoon baking powder
½ teaspoon cloves	1½ teaspoons soda
½ teaspoon nutmeg	1 cup sour milk
½ cup brown sugar, firmly packed	

Combine Spry, salt and spices and blend. Add brown sugar gradually and cream well. Add eggs, one at a time, beating thoroughly after each addition. Add molasses and blend.

Sift flour, baking powder and soda together 3 times. Add small amounts of flour to creamed mixture, alternately with sour milk, beating after each addition until smooth. Pour batter into 10 x 10 x 2-inch pan greased with Spry. Bake in moderate oven (350°F.) 50 to 60 minutes. Spread Orange Topping on top. Cut diagonally across to make diamond-shaped pieces.

Orange Topping

1 package (3 ozs.) cream cheese	2½ cups sifted confectioners' sugar
1 tablespoon Spry	2 tablespoons scalded top milk (about)
¼ teaspoon salt	
1 teaspoon grated orange rind	

Blend cream cheese, Spry, salt and orange rind. Add sugar gradually, beating until smooth and creamy. Add just enough top milk to make a nice spreading consistency.

(*All measurements in these recipes are level*)

Wrestler to Africa

Wrestler "Whiskers" Blake, six feet seven inches, thin and wiry, known to Canadian mat fans, arrived in Africa for 14 days, but has stayed there three years because he likes it.

10,000 Spider Species

There are more than 10,000 known species of spiders, some 1,300 of which are found in the United States.

Genius and Love

When the supreme light in us inspires the intellect we have genius, when it stirs the will we have heroism, when it flows through the heart we have love.

HALLOWE'EN Tables Feature Gaiety

...but the refreshments themselves can be simple to prepare and to serve

By Dorothy Greig

A FRIEND once remarked that when a hostess has "bubble" her party is a success. She herself exemplifies that quality, for if anyone ever sparkled with genuine delight at entertaining friends, it is this same woman. Her joyousness is as cheery as a hearth flame Even the shyest of guests soon shines in its radiance.

Hallowe'en is one party at which it is easy for hostess and guest alike to "bubble". Hallowe'en affairs are gayer than most. The fun runs quick and deliciously goofy.

The hot casserole with Egg Face Top is the special feature of these Hallowe'en refreshments.

For refreshments set your table up buffet style, with bright paper tablecloth and colorful paper plates and cups. (And after the party no dishes to wash. Whoops! I feel gay at the mere thought of that!)

Let's have one hot dish, a big casserole; for the rest, simple fare and coffee—oh, much coffee, black, hot and fragrant.

Hallowe'en Supper Menu

Chilled Tomato Juice
** Hallowe'en Casserole with Egg Face Top*
Assorted Relishes—Celery Hearts, Ripe and Stuffed Olives
Pickled Pineapple Cubes and Currant Jelly
Bread and Butter Sandwiches
Sugar or Chocolate Doughnuts
Coffee

* recipe given

The casserole with its amusing egg faces is made this way:

Hallowe'en Casserole with Egg Face Top

1 can (15 oz.) tuna fish
2 cans condensed cream of mushroom soup
½ cup milk
¼ cup heavy cream
½ cup stuffed olives, sliced
½ lb. potato chips (for lining casserole)
6 eggs, hard-cooked

Put the tuna fish in a strainer and pour hot water over it to take off the excess oil. Empty the condensed cream of mushroom soup into a saucepan and stir well. Then add milk, cream, tuna fish, and sliced olives. Line a shallow casserole dish with the potato chips and put potato chips around the sides of casserole. Pour the tuna fish with sauce into casserole, arrange egg faces in the top and bake in moderate oven (350°) for 30 minutes. Serves 8.

Egg Faces (for top of casserole)

5 eggs, hard-cooked
4 tablespoons cream, heavy
½ teaspoon salt
Pinch of pepper
¼ teaspoon dry mustard
3 ripe olives
½ pimiento

Remove yolks from hard-cooked eggs and mash well with a fork. Then add cream, seasonings and dry mustard and mix well. Stuff mixture back into the egg white, and use triangular piece of pimiento for the nose and small pieces of ripe olives for eyes and mouth.

Radio Announcers' Diction

One of the requirements of the major radio networks is that announcers' diction should be free of all sectional accents.

Haiti Building Boom

Backed by United States credit, Haiti is launching a building boom which will include new roads, bridges and irrigation works.

Aluminum Softball Bat

A new product of the metal industries is an aluminum-alloy softball bat designed by a company in Cleveland. Weighing the conventional 32 to 33 ounces, the bat does not sting the hands because it is made of metal, and it cannot break in actual play.

Money in Your Pocket

You don't have to shoot the bill collector or put in a new furnace to save on your winter fuel bill. Scientists of a major glass company have found that savings up to 30 per cent can be obtained by "window-conditioning" a house with storm sash.

Probating Wills

It is necessary that any will which is produced must be probated. This is for the double purpose of protecting the wishes of the deceased and the rights of his declared heirs. It also assures that any government taxes will be paid.

'A Dog's Tale'

Mark Twain's "A Dog's Tale" was first published in Harper's magazine in December, 1903. Subsequently it was privately printed by the National Anti-Vivisection society. In 1904 Harper's brought out the story in book form.

Gorillas Are Sissies

The ferocity of the gorilla, terrifying "boogey" of screen and fiction, has been disproved by explorers. They agree in saying that the animal is extremely shy and difficult to catch sight of, often hiding in the thickest part of the woods on the approach of man.

Friendship and Success

The making of friends who are real friends is the best token we have of a man's success in life.

Coat With a Dressmaker Look

WITH shirrings and pleats and draped belt, this coat has all the airs and graces of a dress and is very much in the fashion spotlight because it is becoming to almost everyone. The fabric, Velperla, is news, a Forstmann origination, with faintly nubbed surface. So is the color, Graingold, the warm hue of autumn-gilded birch leaves.

Treaty of Ghent

At Ghent, in Flanders, on December 14, 1814, the famous peace treaty was signed which formally declared at an end the War of 1812 between England and the United States. News of the treaty did not reach this country until February and fighting was still going on in Louisiana.

World's Greatest Housekeeper

Probably the world's greatest housekeeper is the Pullman company which in a single year purchased 220,526 sheets, 157,780 pillow cases, 20,253 tidies, 455,829 hand towels, 24,318 headrest covers, 13,692 napkins and 3,260 table cloths, the Association of American Railroads reports.

State Roofs

When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

Chemical Energy Relationships

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.

Abyssinian Burial Tree

In Abyssinia and other parts of Africa, the baobab tree is often used as a tomb and due to some property of the wood bodies placed therein become mummified.

Foreign Auto Ownership

Of all the countries in the world, only two—Ethiopia and Liberia—have as few cars per person as America did in 1900. They have one auto to 12,000 inhabitants.

TOMATOES—Lush and Red are now at their sun ripened best

declares Dorothy Greig

NEAR where I live is a famous soup kitchen. One morning at this time of year the air is filled with a sudden all-pervading fragrance. The tomato season has begun!

For weeks then, converging down every road, come thousands of trucks laden with shining red tomatoes bound for those soup kettles. They hurry, do the trucks, urged by the desire to capture within a few scant hours the fresh perfection of the tomatoes. For these tomatoes were picked only after Mother Nature had in her fullness ripened them redly through to their very hearts, and blessed them with rich vitalizing juice.

Right now, too, ripe tomatoes abound in our markets. At no season are they finer in flavor. Let's serve them often, while we may, in salads, as a relish. Tomatoes are a truly abundant source of Vitamin C. A big glassful of tomato juice at breakfast, for instance, gives us our supply of this vitamin for the day.

Another way to enjoy the flavor and goodness of tomatoes is in cooked dishes. Here canned tomatoes, condensed tomato soup and tomato juice are particularly suited to our purpose. This ham ring contains tomato soup, is easy to make and is a beautiful blending of meat with tomato flavor.

Baked Ham Ring

1½ pounds raw ham, ground
½ pound fresh pork, ground
1½ cups soft bread crumbs
1 can condensed tomato soup
2 eggs
2 tablespoons chopped onion
½ teaspoon salt
¼ teaspoon pepper

Combine all ingredients and mix well. Pack into a buttered ring mold and bake in a moderate oven (350°) for 45 minutes. Fill the center of the ring and garnish the platter with cooked carrots. Serves 8.

And here's an idea for a hot slaw that is quite unusual:

Hot Tomato Cabbage Slaw

1½ cups tomato juice
1 quart shredded raw cabbage
½ teaspoon salt
1 tablespoon butter
2½ teaspoons sugar
1 pinch pepper

Cook the shredded cabbage, uncovered, in the boiling tomato juice. Add salt and turn cabbage occasionally so that it all cooks in the juice. Cook 15-20 minutes. Add salt, butter, sugar and pepper and heat thoroughly to blend the flavors. Serves 4.

A Baked Ham Ring with a glorious tomato flavor is filled and garnished with carrots.

Movie Fan

On a visit to the penal colony on Devil's island, French Guiana, Cameraman Pierre-Andre Martineau discovered the world's most enthusiastic movie fan. He was a convict whose body bore tattooed portraits of Garbo, Marlene Dietrich, Mary Pickford and other film stars. His gallery is now complete; he has no more room for pictures.

Package Receiver

A package receiver, installed in the wall of the kitchen, is a useful but not costly feature which adds considerably to the comfort of the family and to efficiency in the home. It has a self-locking door which opens outside and is insulated and ventilated. Another useful feature in the home is a laundry chute, particularly for homes with basement laundries and second-floor sleeping quarters. They are installed in the walls and have vertical shafts which permit soiled clothes and linen to be dropped directly to the laundry.

Midway Islands Discovery

The Midway islands were discovered on July 5, 1859, by Capt. N. C. Brooks of the American-owned Hawaiian bark, Gambier, who took possession in the name of the United States. Captain Reynolds, in the U. S. S. Lackawanna, took possession formally on August 28, 1867.

Hatless Fad Not New

The hatless fad, which was at its height in '32 and '33, was neither new nor collegiate. It dated back before the American Revolution to the time when English dandies carried their hats in their hands to avoid mussing their curled and powdered wigs.

Eight Ounce Gloves

The International Amateur Boxing federation has stipulated gloves in bouts under its jurisdiction must weigh eight ounces, the leather and stuffing not to exceed four ounces each.

Hillcrest Druids Plan Card Party

Unusually attractive prizes will be given away to lucky whist players on Monday evening at Masonic hall.

Madame Victorine Lombard and Mrs. Genevieve Rosenberg, chairmen of the October card party sponsored by Hillcrest Circle No. 143, U. A. O. D., today cordially invited the public to attend.

Playing begins at 8:30 p. m. A large crowd is expected, with an even more successful game than usual. Two of the awards will be cash.

Biggest Building

The biggest building in Europe is the Palace of Justice at Brussels. It covers an area 12 per cent greater than that of St. Peter's at Rome.

"LABOR COMMITTEE FOR WILLKIE"

Chic

For tea dancing after the football game, you'll want a simple crepe frock and devastating hat. Ann Eden, heard on Columbia network's "A Friend in Deed," wears Ruth Covell's "Temptress" hat of black soleil with three yards of lace veiling. Her slate blue crepe dress features corresponding gathers in the bodice and skirt, three-quarter sleeves and looped bow belt. (Dress from Lord and Taylor, New York.)

Double date dresses are most popular with sweet young juniors invited to their best beau's college for the "big game" weekend. Helen Lewis of Columbia network's serial "Kate Hopkins" wears a double purpose ensemble, suitable for both formal dances and semi-formal affairs. It is a soft blue crepe frock, with intricately shirred bodice, flattering decolletage and graceful skirt. The fitted velvet jacket has a richly embroidered panel of beading and paillettes. (Saks—Fifth Avenue, New York).

National Park Visitors

Travelers from 23 foreign countries, five United States possessions, the 48 states and the District of Columbia were among the 361,767 visitors to Mount Rainier National park last year. It was the second largest number of visitors in history.

Taxes on Motorists

Motor car owners pay a total annual tax bill of $1,320,000,000 on oil, gas and license plates, according to an estimate by the League of Women Buyers and Taxpayers. This is more than manufacturers get for new cars in a year.

PANTRY SHELF DINNERS

that are excitingly good to eat

by Dorothy Greig

MY pantry shelf often brings to mind Aunt Ellen, who was a country minister's wife. When church women rumbled into town with their eggs and butter they expected, as a matter of course, to lunch with the minister's wife. It behooved Aunt

Rice Ring filled with Creamed Dried Beef and Egg Slices garnished with Grilled Apricots is made from packaged rice, canned beef, canned soup and canned apricots.

Ellen to think fast and always be prepared.

One of her little stunts was to make dozens of pie shells early in the fall and park them away in the cold room of the cellar to be filled and baked as needed.

Today, one of the tricks of a well planned emergency shelf is not necessarily quantity but variety, planned in terms of putting together a complete meal. For instance, you can always get a meal in a hurry if your pantry shelf holds several cans of meats, vegetables, fish, fruits, evaporated milk, a package or two of ready prepared biscuit, pastry and cake mixes, a bottle or so of pickles. And above all, condensed soups—for condensed soups have double and triple uses. They can be served as soups. They make quick casseroles. And they're grand for sauces.

The appetizing dinners outlined here are evolved almost completely from canned and packaged foods:

**recipe given below*

PANTRY SHELF DINNERS

*Chicken and Tomato Soup**
Casserole of Tuna Fish and Macaroni
Buttered Peas
Bread and Butter
Pineapple Cubes with Cookies
Coffee with Cream

Chicken Gumbo Soup
*Creamed Dried Beef and Eggs in Rice Ring**
Garnished with Grilled Apricots
Buttered Carrots
Date and Nut Slices with Cream Cheese
Tea with Lemon

* * *

*Chicken and Tomato Soup
1 can condensed chicken soup
1 can condensed tomato soup
1 can milk

Combine the soups, then add the cold milk. Heat, but do not boil. Serves 4-6.

*Creamed Dried Beef and Eggs in Rice Ring

Creamed Dried Beef and Eggs:
4 ozs. (1½ cups) dried beef
1 tablespoon butter
1 can condensed cream of mushroom soup
½ cup milk
2 hard-cooked eggs, sliced

Put the dried beef in a strainer and pour 1 cup of hot water over it to take off the excess salt. Drain well and cook the dried beef in the butter, stirring constantly. Add the cream of mushroom soup and milk. Mix well and heat. Add the sliced eggs just before serving.

Rice Ring:
1½ cups raw rice
4 teaspoons salt
2½ quarts water

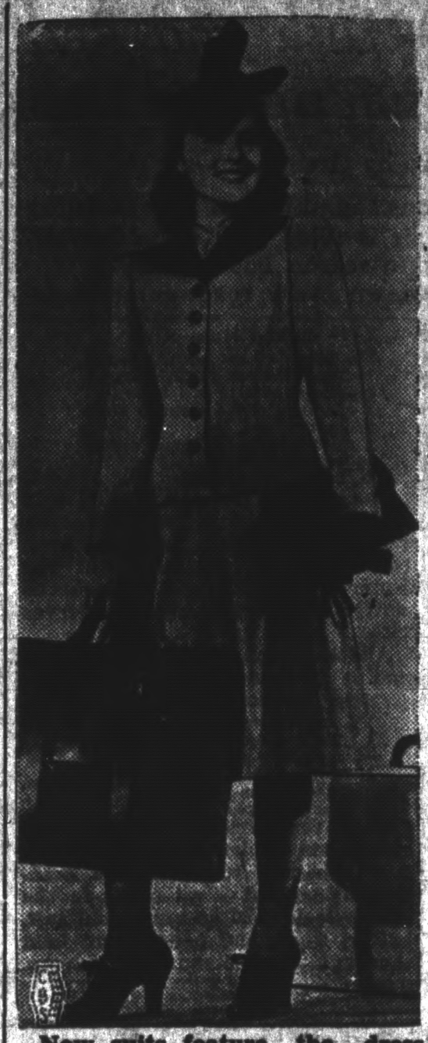

Wash rice thoroughly. Add salt to boiling water and add rice slowly so that water does not stop boiling. Boil gently, without stirring, for 15-25 minutes. Drain into sieve, pour hot water over the rice, cover with cloth and set over hot water to separate grains. Pack into a well-buttered ring mold and keep hot. Then turn out on a large chop plate. Pour the "Creamed Dried Beef and Eggs" into the Rice Ring and serve grilled apricots around it. Serves 4-5.

Home of the 'Angels'

If you are of the English-speaking race, Sweden invites you to see little Angelholm on the Ronnea river. This is where the Angels came from who gave their name to England, the folk whom the pun of Pope Gregory I made into angels.

Old Spanish Building

Flat Spanish bricks from the first white man's building in Washington state, erected by the Spanish commander Elizo in 1792, may be seen by tourists on the banks of a creek flowing through the Makah Indian reservation.

New suits feature the dress rather than the skirt. Helen Lewis, of Columbia network's serial "Kate Hopkins," wears one of brown and natural herringbone that is ideal for travelling and football games. Softly tailored, its only trimming is the brown velvet binding about the neck of the simple sports frock, exaggerated velvet revers on the jacket, and bone buttons. She carries a canvas blanket case and simulated leather weekend bag. (Suit and luggage from Saks—Fifth Avenue, New York).

U. S. Highest Lake

The highest lake in the United States having an area greater than one-tenth of a square mile, is Tulainyo, 1½ miles northeast of Mount Whitney, Calif. It has an elevation of 12,865 feet.

In Ocean View

With Ocean View Sue

We don't like to mention personal matters, but do you always sneeze when you open a new box of soap? We do, too, and that's why we're happy to recommend the new "anti-sneeze" Rinso now on special at Sure-Save Groceteria. By the way, Sure-Save is featuring skinless frankfurters for Hallowe'en, 18c a pound, with a free "Weeny-Witch" Hallowe'en party book to go with them.

Alemany Cleaners, as always, will help you with your mending by making small repairs free of charge. For that Hallowe'en party, try some doughnuts from Ocean View Bakery and ice -cream from Pat's. And don't forget that new permanent from Morgan's Beauty Shop.

Washington's Farewell Address

Washington's "Farewell Address" was written primarily to eliminate himself as a candidate for a third term. It was never read by the President in public, but printed in Claypoole's American Daily Advertiser, Philadelphia, September 19, 1796. The address is in two parts. In the first Washington definitely declines a third term, gives reasons, and acknowledges a debt of gratitude for the honors conferred upon him and for the confident support of the people. In the second, more important part, he presents, as a result of his experience and as a last legacy of advice, thoughts upon the government.

Tractor Romance

When Father's day rolls around next year a tractor on the farm of J. M. Templeton, near Colorado City, Texas, should not be forgotten. In fact, the tractor was almost a mother. A wren built her nest beneath the seat. Heat from the motor kept the eggs warm all day while the wren waited in a tree and took over the job at night. After the eggs were hatched the tractor was brought in at noon daily so the mother could feed her chirping offspring until the family was strong enough to fly away.

McGINTY'S DOWNFALL

Beauteous Steffi Duna lends her charm, talent and dancing ability to Paramount's "The Great McGinty," now playing at the Daly City theatre.

Phosphorous Buttons

After weeks of stumbling over each other in the pitch black streets, Berliners are now wearing round buttons the size of a penny around the neck or in the button hole. Covered with phosphorous, they glow in the blackness.

Ghetto in Amsterdam

Probably no Ghetto in Europe has more American visitors than the one in Amsterdam. They come to No. 41 Waterloo Plein to see where Spinoza was born, and to the house at No. 4 Jodenbree street where Rembrandt lived for 16 years.

Mahogany Native to U. S.

Mahogany is native to the United States. It is found though only in small quantities in southern Florida on the mainland and on the larger of the keys. It is the same species of mahogany that grows in the West Indies, where it is known principally as Santo Domingo or Cuban mahogany. An avenue in Miami is lined for many blocks with mahogany trees. The average person might easily mistake them for ash trees due to the similarity of the leaves. "Mountain mahogany" is a large shrub or small tree found in the western states. It is not a mahogany but a member of the rose family. The wood is very close grained and of a rich red color. The trees are small and the wood has not the stability of mahogany.
